Battery Safety and Handling

Follow the instructions contained in this document to ensure safe handling of the battery contained in your kit.

WARNING: To protect against electric shocks, injuries or fire hazards and RISK OF EXPLOSION, follow all Safety Rules!

BATTERY CHARGER SAFETY RULES

• The charger must be used exclusively to charge the batteries that came with your tool.
• Use only the battery intended for tool.
• Charge only when environment temperature is between 23-131°F (-5°C to 55°C) Optimum operating temperature range: 50-122°F (10°-50°C)
• Store batteries in a dry place with no danger of frost.
• Plug the battery charger in, and gently insert the battery correctly into the charger. ONLY insert batteries that are cooled down. The charging operation starts automatically.
• Do not insert the battery into the charger after each use.
• If battery life becomes significantly shorter despite proper recharging, replace the battery.
• Check the cord, plug and charger regularly and have them repaired by an authorized, skilled specialist electrician when damaged.
• For repairs, use only genuine plugs and cords and genuine spare parts.
• Never use the charger in a humid or wet environment or close to flammable substance or gases.
• Take the charger out of its packaging before use. Insert the accompanying battery correctly into the charger.
• Never try to charge non-rechargeable batteries.
• Store the charger in a dry, closed room, out of the reach of children.
• Never insert metallic parts into the charging bay - danger of short circuiting.
• If the charger is wall-mounted, make sure that the inserted battery cannot fall out due to external influences (e.g. vibrations).
• Ensure there is adequate supervision for operators of this battery charger who may be impaired, untrained, or unskilled.

BATTERY SAFETY RULES

• Never insert metallic parts into the charging bay - danger of short circuiting.
• Never try to charge a damaged battery.
• Do not insert a dirty or wet battery into the charger.
• If old batteries must be replaced, give used batteries to an approved battery recycler. NEVER THROW DISCARDED BATTERIES INTO THE WASTE, INTO FIRE, OR INTO WATER!
Arconic Inc. (NYSE: ARNC) creates breakthrough products that shape industries. Working in close partnership with our customers, we solve complex engineering challenges to transform the way we fly, drive, build and power.

Through the ingenuity of our people and cutting-edge advanced manufacturing, we deliver these products at a quality and efficiency that ensures customer success and shareholder value.
